the zone order, 1 to 60

every zone you can level in on WoW Forever, both factions, in the order you'll reach them. the number on the left is the level range; under each zone is where you can fly to and the dungeon you'll find there.

tip two zones at the same level? do the one with your flight point first. **red** means no flight point for your side: walk in.

Alliance

36 zones · no Alliance flight point in Thousand Needles, Alterac Mountains, Badlands, Swamp of Sorrows

32	55–60	**Mount Hyjal** new in Forever	fly: Summit of Eternity, Tainted Foothills

Shen'dralas: no number

the game lists no level for it: it isn't in the group finder and has no flight point. Blizzard hasn't published one. been there? reply to the email with your level and we'll add it.

checked 5 November 2026 against the live Forever client (build 70790, patch 1.60.1). Blizzard has published no zone table, so the original zones use the original game's ranges, each inside the band the client's own group finder lists. Riverglades is Blizzard's "mid-30s to mid-40s"; Mount Hyjal is the group finder's 55 to 60. made by @wowforeverguide.
